

**Kaleidico**  
CASE STUDY

# **Commercial Real Estate Development**

Website Development

# Website Development

Top Detroit area real estate development, construction & property management company engaged Kaleidico to develop their website to not only support their web visitors but also to become their primary presentation tool for business development.

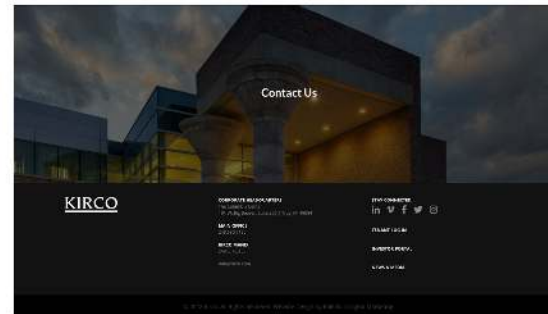

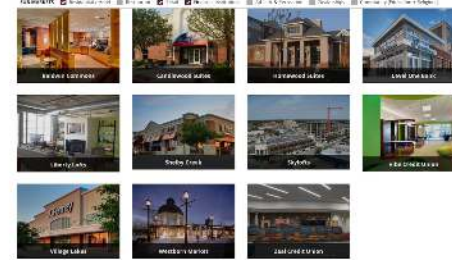

Kaleidico has continually supported them since 2015, not only optimizing their website but also developing websites for their property management clients.

# Website Design

The real estate development, construction & property management company needed a website that would not only support web visitors but also be the primary presentation tool for business development
